Specifying Quicksetts™

Quicksetts™ are manufactured by Jobling Purser
tel: +44 (0)191 273 2331 to be applied and laid all in accordance with the
manufacturer's written instructions. www.quicksetts.com

What are Quicksetts™ ?

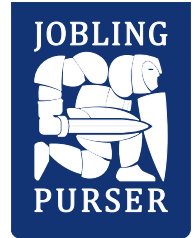

Designed to accurately replicate the appearance of traditional granite setts, Quicksetts™ are the modern solution which can be installed and opened to traffic in a matter of hours. Consisting of hard wearing granite particles and specially selected bauxite aggregate bound together with a synthetic resin, Quicksetts™ are available in a range of designs for a variety of situations.

Installed directly onto asphalt/macadam or concrete surfaces, our specially formulated, cold applied, Quicksett™ Bedding and Jointing Compound compliments the setts giving the look of a traditional bituminous jointing media.

Quicksetts™ Patent Pending

Quicksetts™ Rumble Strips

Capable of withstanding the rigours of bustling towns and city centres, Quicksetts™ are the ideal solution for planners wishing to provide an attractive decorative rumble strip with the enhanced benefit of tactile vibration.

Quicksetts™ Speed Tables

Effective, proven design to slow vehicle speeds in high density pedestrian areas, offering a visual and discernible deterrent to excessive speed.

Comprehensive range of chamfered edged Quicksetts™ allows smooth passage both onto and off the speed table whilst also eliminating the risk of pedestrian trip hazards.

Quicksetts™ Lane Delineation

Dedicated and clearly defined lane demarcation created with Quicksetts™ which gives a sensory and audible warning should deviation from the lane occur.

Quicksetts™ Patent Pending

www.joblingpurser.com

Quicksetts™ Decorative Edging

Ideal for use as a decorative edging, demarcation or to delineate car park bays, Quicksetts™ offer attractive definition which is quick and easily applied but adds a timeless appeal to any hard landscaping project.

Quicksetts™ Resin Bound Edging

Complimenting other forms of paving, Quicksetts™ are the perfect way to frame your resin bound surfacing. Our chamfered edged Quicksetts™ having a leading edge of approximately 5mm going up to 18mm, allows an effective retro fit solution onto asphalt or concrete. For new schemes our edging setts with an overall thickness of just 5mm creates the perfect leading edge encasing the decorative surface.

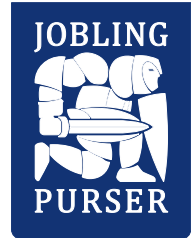

Quicksetts™ Water Channels

Conduit for rain water, Quicksetts™ can be placed strategically to divert the flow away from low lying paved areas and towards the existing surface drainage.

Quicksetts™ Patent Pending

www.joblingpurser.com

Quicksetts™ Letters & Numbers

Imagination is the only limitation. Quicksetts™ can also be used to make shapes, letters and numbers. Where traditional white lining would not be in keeping with the local surroundings, Quicksetts™ can be used to create a non intrusive, stylish yet individual finish to your project. Using our low profile edging setts with just a 5mm up stand enables use in a variety of situations.

Quicksetts™ Roundabouts

Roundabouts installed using Quicksetts™ have an ageless visual appeal and with rapid installation times Quicksetts™ are the ideal choice to reduce traffic delays in sensitive multi-junction locations.

Preformed Quicksetts™ shapes ensures the perfect circle centres. Beginning with an octagon as the centre stone, followed by rings of inner and outer dovetails, the diameter can be further extended with the square Quicksetts™. The final outer ring is completed using chamfered squares reducing the potential risk to pedestrians of a trip hazard.

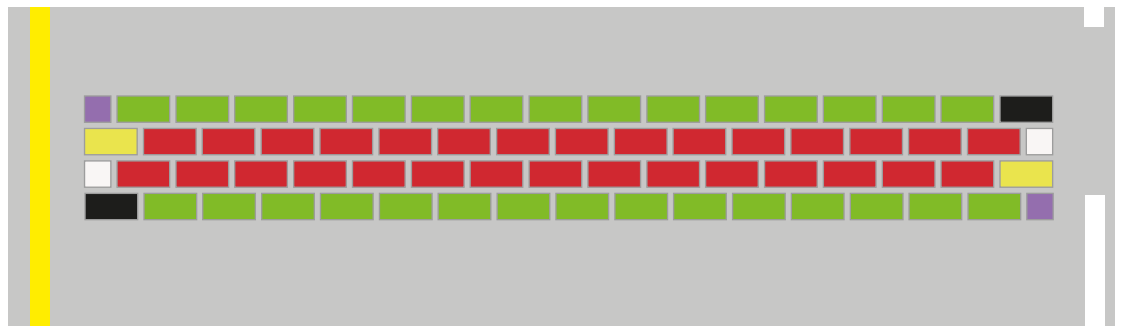

Quicksetts™ 3.5m Rumble Strip Pack

3.5m Rumble Strip - Approximately 3.5m long x 0.47m deep
20mm maximum profile depth with chamfered edges.
Pack comprises all materials for 4 rows.
Corners square and rectangular.
Packs available in either Rough or Smooth finish.

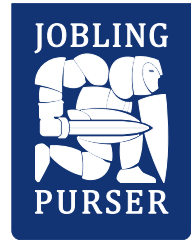

Kit Contains:

- 1 x Quicksetts™ unit scraper
- 1 x 50m x 100mm roll of duct tape
- 2 x Quicksetts™ Bedding & Jointing Compound Standard Notched Applicator
- 2 x 10.4kg Quicksetts™ Bedding & Jointing Compound

Quicksetts™ consumables and Quicksetts™ Bedding and Jointing Compound are not included.

Packs available only in Smooth finish.

Boxes for Lettering and Numbers:

Box O 16no. Low Profile Square Setts

Box P 16no. Low Profile Outer Dovetail Setts

Box R 16no. Low Profile inner Dovetail Setts

QUICKSETTS

A guide for forming all letters and numbers is available from Jobling Purser.

We would advise when ordering materials for lettering or numbers to allow

1 x 2.6kg Quicksetts™ Bedding & Jointing Compound to 15no. Low Profile Quicksetts™ (Squares or Dovetails).

One additional 2.6kg Quicksetts™ Bedding & Jointing Compound unit for each letter /number should be purchased to ensure sufficient material.
